TOOL

Mediterranean Floods

Title : Mediterranean floods | *Developed by* : DREAL PACA

Topics : Flood | *Website* : <https://www.cypres.org/Default/digital-viewer/c-25863>

Description

A booklet for schoolchildren to explore different themes relating to flooding around the Mediterranean. This booklet has been designed for children aged 5 to 12. It will cover :

- The water cycle;
- A major risk;
- When flooding occurs;
- The right reflexes;
- Prevention and protection.

Duration

1h

Resources needed

To use the tool, we need:

- Computer and projector;
- Printing booklet for each pupil.

Age

Primary School : 5 to 11
years old

Relevance to CRISEPAC Objectives

This tool responds to the objectives of the CRISEPAC project.

This booklet is a good tool to learn about flood risks at school.

Expected outcomes

- Preventing natural hazards;
- Vocabulary and knowledge relating to flooding ;
- Raising awareness of the risk of flooding in the Mediterranean;
- Understanding how to react during a similar event;
- Safety about themselves and others.

Mediterranean Floods

Management

The teacher who has to follow the workbook has the option of having the pupils work independently or completing the workbook with them.

Risk prevention

The booklet covers the right reflexes, prevention and protection against flooding in the Mediterranean area.

Others

Weaknesses

- Printing the booklet for each children;
- Talk about Mediterranean area;
- The teacher must have a minimum knowledge of the subject.

Strengths

- Playful activity;
- Pedagogical tool;
- Participative;
- Comprehensive learning support.

Possible adaptations

The teacher is not constrained to cover all the topics in the booklet. The exercises can be completed independently of each other.

Climate change

Flooding will become increasingly intense as a result of global warming, due to the phenomenon of evaporation and cloud formation.

Methodologies

The booklet can be filled in at the same time as the lesson or it can be completed afterwards to go back over the concepts covered in class.

The booklet is designed for children aged 5 to 12. Each activity has a difficulty level indicated by a drop of water (1 to 3 - from easy to difficult).

This booklet covers :

- The water cycle;
- What is a major risk?
- Mediterranean rainfall and a quiz;
- When flooding occurs;
- The right reflexes;
- Double page of coloring: Trapped;
- Major floodings;
- Prevention and protection;
- Help;
- Risk flood words;
- Other risks that can lead to flooding;
- What do you need to remember?
